

The Heritage is our Barreled roof passenger waiting shelter. Manufactured from high grade aluminium alloy and powder coated to a colour of your choice. Numerous configurations are available from cantilever to fully enclosed. Various glazing options allow you to choose the most suitable material for your environment. Able to accommodate advertising panels, the shelter can also be manufactured for RTI systems, solar lighting, CCTV systems with perch/bench seating and timetable cases. The Harrogate shelter is available in any size to suit your requirements and will be installed by our own fully qualified engineers.
