

The Ace York Shelter is the ideal cycle storage solution in any setting with its contemporary design. Welded frames from heavy duty 100mm x 60mm box section give the shelter a very strong and durable construction along with anti-tamper high strength zinc coated fittings making the York the perfect shelter in all areas including those susceptible to vandalism.

Constructed from mild steel, galvanized BS EN ISO 1461 or zinc plated EN12329 - 2000 Fe/Zn8/a/c. and powder coated BS EN 12206 to a colour of your choice. Roof glazing is of 5mm PET-G and the shelter is supplied with Sheffield toast rack(s) as standard.

Capacity	Dimensions (mm)		
	Height	Width	Depth
10	2150	4120	2700
